 - **Switching system**
- **Academic Technology Consultants Support teaching pedagogy**
 - **Online videos and Glow vs DVD/VCR**
 - **Consulting on cameras and audio amplification in the classroom**
 - **Specific software used for teaching**

- Common issues

- Wake up the PC or Mac
- Can't log in - Space in name
- Audio not working
 - Select Extron HDMI
 - YOUTUBE mute
 - Volume Control
- Image not showing up on screen
 - Select another input then go back to the input you wanted

Moving Forward

- **Based on prior years data, the reduced usage of installed PC/Mac computers in the classrooms has presented an opportunity to move to a laptop only classroom model over the next few years**
 - **Benefits of Laptop only room**
 - **Remove desktop computers from the rooms will reduce power consumption campus wide**
 - **Streamline inputs and electronic components in the a/v system**
 - **Substantial reduce budget needs for classrooms**
 - **Presenters using their own laptop that they are comfortable with will greatly reduce support issues making for a better classroom experience for students.**
